# The total solution

**System Edström is one of Europe's leading suppliers of van racking solutions and accessories.**

Our systems keep your tools and equipment well organised and safe – improving efficiency and saving you money.

**For more than 60 years, we've built our offer on three pillars**

**1**

## **Attitude**

We promise you the best service from start to finish

**2**

## **Agility**

We work with you at all times, with the flexibility to respond to your specific requirements

**3**

## **Availability**

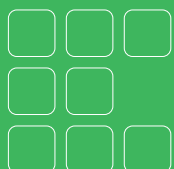

We keep all our products in stock here in the UK, ensuring a quick turn-around for your orders

**We offer our customers the complete van conversion solution. From the moment you contact us, we give you:**

- Expert help to design the perfect system
- Full, secure installation
- All necessary vehicle inspections
- Delivery direct to your premises

**You can relax in the knowledge we take care of everything**

## OUR MISSION

**Develop and provide tested, safe equipment for our customers**

**Focus on quality and value**

**Build a sustainable, innovative and adaptable company**

SYSTEM  
EDSTRÖM

## Fast

### A fast turn-around

We keep everything we need in stock here in the UK, so we can fulfil your order in the shortest possible time.

With plenty of bays in our workshop, plus secure storage facilities for many more vans on-site and nearby, we can complete the job when you need it.

## Safe

### Keeping your driver and payload safe

For us, the safety of your drivers and their cargo comes first.

We test our racking systems at RISE – the Research Institutes of Sweden. The institution has a deserved reputation for high standards and works with companies, public sector organisations and research institutes around the world.

## Quality

### A reputation for quality

Established in Sweden more than 60 years ago, we have built a reputation for our commitment to developing the finest products and the highest levels of customer service.

# The System Edström touch

## Configure

### Designed for you every time

Our web-based customer drawing tool puts you in complete control of your design. It allows you to configure your installation to your exact requirements and generate a 3D preview of how your vans will look.

Your knowledge and our expertise make for the perfect solution.

## Bespoke

### Building bespoke systems

We design and install bespoke systems for a number of high-profile customers in specialised industries, from construction to automotive, rail, local authorities and more.

Just speak to our expert team of advisors for help designing the perfect solution to suit your fleet.

SCAN ME

# Acting now on sustainability

**We are committed to building a sustainable future. And we don't just talk the talk. We are taking tangible, effective steps to improve our environmental credentials.**

The centrepiece of our programme is our Green Report. This sets out our achievements and aims.

Our work began in 2017, when we reviewed all our operations – from suppliers to manufacturing – to see where we could cut emissions and waste. Since then, we have significantly reduced the weight of our products, lowered carbon dioxide emissions and reduced our use of plastics.

## STEEL - our preferred material

It stands to reason that the lighter a van is, the less CO<sub>2</sub> it will emit. This might seem like an argument for using more lightweight racking. But lighter is not always better. At System Edström, we will continue to use Swedish-manufactured steel for our racking.

Why? The overall environmental impact of Swedish steel is less than aluminium. Its greater strength and durability makes it the better choice as a high-quality product with a lower impact on the global environment.

SYSTEM EDSTRÖM

# Comprehensive range of products & accessories

**We provide complete van racking solutions for fleets of any size, in any industry.**

From vehicle racking, drawers and shelving, to electricals, accessories and graphics, we have the perfect products for you.

Always innovating, we are continually looking for ways to deliver ground-breaking new products, including:

- **Carry bins**, that allow your customers to take what they need directly onto the job
- **Thinner racking** and shelf frames to reduce weight and improve fuel efficiency
- **E-LCV on-board power**: A brand new on-board system to power all your customers' electricals

**Accessories:** We have a comprehensive selection of accessories to complement your racking, including lighting, safety products, tool cases, drawer inserts, storage bins and more.

**Electricals:** We also provide electrical systems to meet the increasingly complex requirements of modern vans, including lighting, inverters and power boards.

**Livery:** We can also take care of any livery or graphics your fleet needs.

# A world of experience

In the UK, we have a 30-year track record of providing efficient and economical solutions to some of our leading companies. Over that time, we've worked with such prestigious clients as Chubb, Colas and Linde. We also work with a number of local authorities, procurement agencies and public organisations.

We are also proud to be a member of the Ford Motor Company's Qualified Vehicle Modifier programme and are the official van converter for Trust Ford's mobile service vehicle fleet.

## Made in Sweden

We manufacture all our racking systems in Sweden – a byword for quality and durability.

## Peace of mind

We offer a 5-year parts and labour warranty on van racking fitted by our experienced installers for complete peace of mind.

Our processes are accredited to stringent international standards and our racking solutions are among the safest on the market.

- ☐ ISO9001:2015 Quality Management System
- ☐ ISO14001:2015 Environmental Management System
- ☐ ISO45001: 2018 Occupational Health & Safety Management
- ☐ VCA approved under the N1 Enhancement Scheme
- ☐ Ford Qualified Vehicle Modifier approved installer
- ☐ Member of SMMT for more than 10 years

## Ideally located

Our UK premises are located in Corby, in the heart of the country, with excellent transport links to just about anywhere. This means we are ideally located to take delivery of your vehicles directly from the manufacturer.

We also work with authorised dealer partners and installers throughout the UK, so you can find a System Edström nearer to you if you need to.
